

FOR THOSE WHO
DARE

Here is your home.

Senior Operational Risk Analyst (m/f/d)

Job Purpose/Role

At AGCS Risk Management we are dedicated to supporting our colleagues by working with them to deliver the best possible solutions in the management, control and mitigation of risks.

Reporting to the Head of Global Operational Risk & Internal Control your core responsibility will be to manage and coordinate operational risk management and control activities under the AGCS ERIC System (Enterprise-wide Risk-based Integrated Control System). With the focus on the areas Claims, Legal and Compliance, these tasks require a close collaboration with (Senior) Executive Management and with risk and control owners to ensure their effective involvement into ERIC processes. You will also be responsible for the coordination and maintenance of the AGCS End-User-Computing framework under the ERIC System.

Key Responsibilities

In this role you will....

- Ensure that operational risks are effectively managed for assigned business functions through collaborative business partnership
- Identify, assess and analyze operational risks and controls through structured ERIC risk assessment workshops or control testing
- Manage, monitor and report AGCS' top operational risks and key risk indicators including presentation and discussion with top management following the scope defined by the AGCS Risk Committee
- Maintain and further enhance the AGCS End-User-Computing framework under the ERIC System

Key Requirements/Skills/Experience

- You have a university degree in business, economics, mathematics, legal, accounting, or any other analytical science
- You have professional experience in insurance, reinsurance and/or asset management
- You have experience in qualitative operational risk management, compliance or audit
- You can bring in a knowledge of the operating model and process landscape of P&C insurance companies allowing for cross-departmental thinking and acting
- You have experience in project and team work in an international and dynamic environment
- You can apply analytical thinking
- You have good communication and presentation skills
- You have the ability to identify problems and develop appropriate and pragmatic solutions in collaboration with stakeholders

- Ideally you have a knowledge of MS PowerPoint and Word, experience with data analytics (e.g. Excel Pivots, Macros, VBA) or with Governance-Risk-Control tools (e.g. IBM OpenPages)
- You can fluently speak and write English, a good knowledge of German would be a plus
